Explanations	

In the Board of Directors meeting of our company held today, it was resolved that:

1. The production line of our North (former) factory, with a capacity of 290 MWp/year, will be renewed in accordance with advancing technology and evolving needs.
2. Orders will be placed for production lines that are compatible with new technologies.
3. Following the establishment of the production line, the existing capacity of 290 MWp/year will be increased to 500 MWp/year, and this line is planning to start operation by the end of the first quarter of 2025.
4. Upon the completion of this investment, the annual production capacity will be increased to 1990 MWp/year.

It is announced to the public with respect.
