Announcement Content	
Explanations	

Under the High Technology Investment Program (HİT-30) administered by the Republic of Turkey's Ministry of Industry and Technology, our application for the establishment of an integrated production facility, including ingot slicing, wafer, and cell production, for the manufacturing of photovoltaic solar panel cells has been positively evaluated. Within the scope of this investment, which has a total projected investment size of approximately 400 million USD and is expected to create employment for 2100 individuals upon completion, a guarantee letter amounting to 50 million TL has been submitted to the Ministry by our Company.

In accordance with the Board of Directors' resolution dated 15.11.2024 and numbered 2024/18, the disclosure of investment-related activities to the public has been postponed, as the investment is still in the evaluation phase and no finalized agreement has been reached.

The investment will be carried out by Zorlu Alfa Solar Hücre Üretimi Anonim Şirketi, in which we hold a 50% stake, and related feasibility studies and investment processes are ongoing. Developments regarding this matter will continue to be shared transparently with the public.

It is announced to the public with respect.

This statement has been translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
