<b>Explanations</b>	

In the area where our production facilities located in Kırıkkale Organized Industrial Zone (Kırıkkale OIZ) are situated, a decision to evacuate the zone was taken by the OIZ management for safety reasons at around 11:00 on 10 December 2025 due to a fire that broke out at a neighbouring facility, and within this scope our production activities have been temporarily suspended.

At around the same time, a limited fire caused by an electrical fault occurred in the uninterruptible power supply (UPS) room, which is located outside our factory building and separately from the production line and production area. The said fire was extinguished in a very short time; no loss of life or injuries occurred, it did not spread to the production lines or the factory building, and no structural or material damage has occurred at our production facilities.

It is planned that our production activities will be resumed at the latest during the course of tomorrow (11.12.2025).

We extend our best wishes to all neighbouring facilities and their employees affected by the fire.

Respectfully submitted for the information of the public and our investors.

Alfa Solar Enerji San. ve Tic. A.Ş.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
